

Oracle Diagnostic Labs pays special attention to the needs of **Long Term Care Facilities.**

We have a single point of view which energizes everything we do: **Full Speed Ahead. Very, Very Carefully.** Oracle Diagnostic under-

stands it is critically important to provide just what you need, just when you need it. However, we understand that it is just as critical to deliver accuracy. If we operated long term care facilities, we'd insist upon receiving that

kind of service, no other way.
