

Oracle Diagnostic Labs is uniquely qualified to serve  
**Substance Abuse Programs.**

One important reason is we provide **Daily  
Quantifiable Test Results.** That's

how Oracle provides you with a reliable number that  
reveals the exact amount of any given drug in the  
system of any given patient on any given day. Just  
as important, Oracle provides this service at no extra  
cost. If Oracle ran a substance abuse program, that's  
just the kind of service we'd want.
